Work Experience

Website Layout

At the moment I have several freelance jobs for local businesses in Miami & Ivano-Frankivsk. You can come in and look at my experience in website layout – dchekpro.com & rostimex.com.ua

Instagram

My first bot on Instagram is at @graniteif
Go to chat with your account and have an automated consultation.

Telegram

At first, I got experience in writing bot code through JS & Python. It was difficult, I made a lot of mistakes.
Now I can create scripted bots in minutes through the platform – Smart Sender.

Education History

The Rolling Scopes School

RS SCHOOL – free courses on JavaScript/Front-end/iOS, conducted by The Rolling Scopes developer community since 2013.

- Created one Web page based on instructions from the Git Hub from the instructors.

Udemy & You Tube & Prometheus

I had paid and free development training on these platforms.

My interest has not waned and I am constantly interested in learning more.
So far I have learned Python syntax.
In the future I will learn Django framework

Awards

My best reward is the happiness of my clients and the increase in their income due to my work
